Welcome to Shell Shockers, a multiplayer online shooter game where every player is an egg! The goal is simple: arm your egg with a weapon and take down other players to crack them open. You can play solo or team up with friends for a more challenging experience. How do you get started? Shell Shockers is easy to learn, but the competition gets fierce as you face off against real opponents. Customize your egg with skins, choose a username (visible to all), select a game mode, and jump into the action! The gameplay varies depending on the mode: **Free for All**: It's every egg for themselves in this chaotic mode. Rack up kills and be the last one standing. **Teams**: Join forces with red or blue team and take down eggs from the opposing side. The team with the most kills wins! **King of the Coop**: Capture the coop area to earn 250 golden eggs. **Capture the Spatula**: One player holds the golden spatula, which can be captured by killing them. Switch teams to get it back! Mastering different weapons is crucial for success. There are seven unique guns, each with its pros and cons. Learn their strengths and weaknesses to become the best egg out there!
